INVESTMENT OBJECTIVE AND STRATEGY

A Philippine Peso denominated Unit Investment Trust Fund (UITF) which aims to provide its participants income and capital growth on a long term basis.

Investments will be in selected shares of stock (minimum of 80% of investment volume) and fixed income securities (FXTN/RTB/TD/Bonds).

CLIENT SUITABILITY

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee,

before deciding to invest.

The Value Equity Fund is suitable **only** for investors who:

- Have a aggressive risk profile
- Have a long term horizon

KEY RISK AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks

- **Interest Rate Risk.** This is the possibility for an investor to experience losses due to changes in interest rates. The purchase and sale of a debt instrument may result in profit or loss because the value of a debt instrument changes inversely with prevailing interest rates.
- **Market/Price Risk.** This is the possibility for an investor to experience losses due to changes in market prices of securities (e.g., bonds and equities). It is the exposure to the uncertain market value of a portfolio due to price fluctuations.
- **Liquidity Risk.** This is the possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a loss. These may be caused by different reasons such as trading in securities with small or few outstanding issues, absence of buyers, limited buy/sell activity or underdeveloped capital market.
- **Reinvestment Risks.** This is the risk associated with the possibility of having lower returns or earnings when maturing funds or the interest earnings of funds are reinvested.
- **Credit/Default Risks.** This is the possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans, or other form of security which the borrower issued.
- **Other Risks.** This is the risk of potential conflict of interest in a related party transaction.
