### **1. Corporate Information**

Philippine Bank of Communications (the Parent Company) is a publicly listed domestic universal bank organized in the Philippines, primarily to engage in commercial banking services such as deposit products, loans and trade finance, domestic and foreign fund transfers, treasury, foreign exchange, and trust services. The Company's principal place of business is at the PBCOM Tower, 6795 Ayala Avenue, corner V. A. Rufino Street, Makati City.

As of September 30, 2024, the Parent Company had a network of 89 regular branches, four branch-lite units, and 166 ATMs (91 onsite and 75 offsite).

The Company's original Certificate of Incorporation was issued by the Securities and Exchange Commission (SEC) on August 23, 1939. On June 21, 1988, the Company's Board of Directors (BOD) approved the amendment of Article IV of its Amended Articles of Incorporation to extend the corporate life of the Company for another 50 years or up to August 23, 2039. The Amended Articles of Incorporation was approved by the SEC on November 23, 1988.

The Parent Company acquired a license to operate as an expanded commercial bank from the Bangko Sentral ng Pilipinas (BSP) on December 24, 1993. On March 31, 2000, the BSP's Monetary Board approved the amendment of the Parent Company's license to regular commercial banking.

The Monetary Board, in its Resolution No. 96 dated January 20, 2022, approved the grant of a universal banking license to Company, subject to compliance with certain regulatory requirements, including the amendment of the Parent Company's charter documents. On March 15, 2022, the Parent Company held a special stockholders' meeting to approve the changes to the Parent Company's Articles of Incorporation to reflect the upgrade of its banking license.

Subsequently, the Parent Company secured the approval of the *Securities and Exchange Commission* for the amendment of its Articles of Incorporation, reflecting the change of its primary license to universal banking. The official Certificate of Filing of Amended Articles of Incorporation was issued on August 17, 2022.

On November 10, 2022, PBCOM secured its Certificate of Authority to operate as a universal bank from the Bangko Sentral ng Pilipinas. PBCOM started its operations as a Universal Bank last December 1, 2022.

The Parent Company's subsidiary and associate are engaged in the following businesses:

Retirement of Business Operation of PISAI and Derecognition of Investment in Subsidiary

On January 11, 2021, the Board of Directors of the Parent Company approved the dissolution and liquidation of PISAI, which had been inactive since the termination of its general agency agreement with Pru Life UK in September 2017. Subsequently, on March 4, 2021, PISAI's Board of Directors resolved to shorten the company's corporate term to June 30, 2021.

Considering several requirements for the termination of business that had to be complied with, the effectivity of the PISAI's corporate term was extended until April 2024. On May 3, 2024, PISAI completed the settlement of its liabilities and liquidated its remaining assets for distribution to its stockholders. Following this, the Parent Company received the release of PISAI's remaining assets and derecognized its investment in PISAI. As a result, the Parent Company no longer consolidates PISAI's financial statements.

In the same meeting, the Board of directors likewise approved the 1<sup>st</sup> tranche issuance from the Bond program a target amount of at least PhP2 Billion with an oversubscription option.

The Series A bonds which have a tenor of one-and-a-half years and a fixed interest rate of 6.0796% per annum represent the first tranche under PBCOM's PhP15 Billion Peso Bond Program. The Bank successfully concluded its maiden peso bond offering ahead of schedule, closing more than a week early on October 17 due to robust demand. Initially set to run from October 14 to October 28, the offering attracted strong interest from both retail clients and a diverse mix of institutional investors resulting in an oversubscription of 3.85 times the initial amount.

PBCOM raised PhP7.7 Billion from its maiden issuance of Peso Fixed Rate Bonds listed on the Philippine Dealing & Exchange Corp. (PDEX) on November 5, 2024. ING Bank N.V. - Level 1 – quoted (unadjusted) market prices for identical assets or liabilities in an active market.
- Level 2 – valuation technique for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 – valuation technique for which the lowest level input significant to the fair value measurement is unobservable, i.e., not based on observable market data.

As of September 30, 2024, the Group used the following level of measurement:

Movements in the fair value measurement of 'Financial assets at FVTOCI' categorized within Level 3 pertain only to the changes in fair value of unquoted equity securities.

There are no transfers between Levels 1 and 2 and no transfers into and out of Level 3.

The Group evaluates and classifies financial instruments, whether it is quoted or not, in an active market. Quoted prices in an active market are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis.

The methods and assumptions used by the Group in estimating the fair value of its assets and liabilities are remained consistent with previous periods, ensuring reliable and accurate reporting under current market conditions. These are as follows:

Investment Securities

Debt Securities

Fair values are based on quoted market prices or consensus prices from Bloomberg if market prices are unavailable.

Equity Securities (Club Shares)

Valued using published prices from recognized sources like GG&A Club Shares and G&W Club Shares.

Unquoted Equity Securities

Fair values are estimated using the guideline publicly-traded company method, relying on comparable publicly-traded companies.

Loans and Receivables:

Fair values are estimated using the discounted cash flow methodology, applying the Group's current incremental lending rates.

Derivative Assets/Liabilities:

Valued based on prevailing interest differentials and spot exchange rates, considering the remaining term to maturity.

Financial Liabilities at Amortized Cost:

Fair values of deposit liabilities and bills payable are calculated using discounted cash flow methods with current incremental borrowing rates.

Investment Properties:

Fair values are determined using the market sales comparison or income capitalization approach, depending on the property type, with significant unobservable inputs like rental rates and capitalization rates.

Significant Unobservable Inputs:

The Group provides detailed disclosures on Level 3 fair value measurements, including the sensitivity of these valuations to changes in significant unobservable inputs.

## 5. Financial Risk Management Objectives and Policies

Risk is inherent in the Group's activities but is managed through a continuing and proactive identification, measurement, and monitoring process, subject to risk limits and other controls. This risk management process is critical to the Group's continuing profitability, and each individual within the Group is accountable for the risk exposures relating to their responsibilities.

Compared with December 31, 2023, there have been no changes in the financial risk exposures that may materially affect the unaudited interim condensed financial statements of the Group as of September 30, 2024. The Group is exposed to the following risks from its financial instruments:

- a. Credit risk
- b. Liquidity risk

- c. Market risk  
 i. Interest rate risk  
 ii. Foreign currency risk  
 iii. Equity price risk

The Group manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual borrowers and groups of borrowers, as well as limits on large lines and industry concentrations. Credit risk management was likewise strengthened with the implementation of ECL models. The Group's ECL calculations are the output of complex models with several underlying assumptions regarding variable inputs' choice and interdependencies.

For the impairment testing on the branch licenses arising from the acquisition of RBNI, the Parent Company's branch banking group was identified as the CGU as the branch banking group would benefit from the synergies of the additional branches in obtaining fresh funds from depositors for deployment.

Key assumptions used in the VIU calculations

As of September 30, 2024 and December 31, 2023, the recoverable amounts of the CGUs have been determined based on VIU calculations that use cash flow projections based on financial budgets approved by management covering a 5-year period. The significant assumptions used in computing for the recoverable amount for PRBI and CSB branches as of September 30, 2024 and December 31, 2023, as follows:

	<b>September 30, 2024</b>	December 31, 2023
	<b>(Unaudited)</b>	(Audited)
Significant Assumptions		
Deposit growth rates	<b>12.10%</b>	12.10%
Discount rate	<b>10.8%</b>	10.12%
Terminal value growth rate	<b>5.20%</b>	5.20%

Deposit growth rates were based on experiences and strategies developed by the Parent Company. The discount rate used for the computation of the present value of the projected cash flows is the cost of equity and was determined by reference to comparable entities. The terminal value growth rate has been determined to reflect the long-term view on the CGU's business.

Sensitivity to changes in assumptions

Management believes that no reasonably possible change in any of the above key assumptions would cause the carrying value of the CGU to exceed its recoverable amount

## SEC Form 17-Q

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

#### 1. Management's Discussion & Analysis

The Bank registered a net income of ₱1.8 Billion as of the third quarter of the year 2024, ₱491.0 Million or 36.14% higher than the ₱1.4 Billion earned during the same period last year. This is attributable to ₱1.0 Billion higher operating income mainly from ₱487.5 Million improvement in net interest income and ₱473.1 Million better trading performance. This is partially offset by higher operating expenses by ₱438.7 Million.

Interest income expanded by 24.26% or ₱1.4 Billion due to asset growth and higher yields in both loan and securities portfolios. To fund this growth, deposits and REPO volumes increased despite higher cost of funds due to current high interest rates environment, causing interest expense to increase by ₱892.2 Million. Increased trading income is mostly composed of realized gains from the trading activities of the Bank. Total operating expenses went up by ₱438.7 Million mainly because of higher volume-driven costs - GRT, DST and PDIC insurance, higher manpower costs, higher provision for impairment losses, higher depreciation and amortization, and higher occupancy and other equipment related costs. Income taxes also increased by ₱96.3M, mainly due to higher taxable income and higher final taxes on interest income on peso government securities and onshore income.

Total Assets of the Bank increased by ₱10.9 Billion from ₱147.5 Billion as of December 2023 to ₱158.4 Billion at the end of the 3rd quarter of 2024. This is primarily due to growth in debt securities carried at FVOCI by ₱10.7 Billion, increase in foreclosed properties by ₱1.0 Billion, and growth in loans and other receivables volume by ₱557.6 Million, partially offset by decrease in due from BSP by ₱940.2 Million, lower cash and other cash items by ₱546.3 Million and decline in interbank receivables and SPURA by ₱403.8 Million.

The Bank's gross NPL ratio is 3.38%, 61 bps higher than the 2.77% ratio at the end of 2023.

Total Liabilities increased by ₱9.0 Billion, 6.96% higher than last year's end level of ₱129.8 Billion. This resulted mostly from ₱5.0 Billion increase in bills payable and ₱3.9 Billion increase in deposit liabilities, mainly from higher time deposits, partially offset by maturity of the Bank's LTNCD in the 2<sup>nd</sup> quarter and lower savings and demand deposits. Total Capital is now at ₱19.5 Billion from ₱17.7 Billion last December 2023. This 10.60% increase in Capital was mainly contributed by the earnings of the Bank as of the 3<sup>rd</sup> quarter of the year.

On quarter on quarter basis, the Bank registered a net income of ₱821.2 Million for the third quarter of 2024, ₱462.5 Million or 128.96% higher than the ₱358.7 Million earned in the same period last year. This is largely due to ₱715.7 Million higher operating income this quarter resulting mainly from higher trading gains and growth in net interest income, partially offset by ₱213.9 Million or 23.94% higher operating expense mainly because of higher volume-driven costs - GRT, DST and PDIC insurance, higher manpower costs, higher provision for impairment losses, higher depreciation and amortization, and higher occupancy and other equipment related costs, and ₱38.1 Million or 26.05% higher income tax.

The Bank's consolidated Risk-Based Capital Adequacy ratio is 17.07% under BASEL 3 and is well above the 10% minimum requirement. The ratio covers credit, market, and operational risks for the first nine (9) months of 2024.

## 2. Discussion of various key indicators:

Ratio	September 2024	September 2023	Remarks
Net Profit Margin <i>(Net income divided by Gross income)</i>	34.23%	31.05%	Increased by 3.19 % pts mainly from higher interest income from higher average volume & higher yields, and higher net trading gain, offset by higher interest expense from higher cost of funds, and higher operating expenses.
Return on Average Asset <i>(Net income divided by Average assets)</i>	1.61%	1.36%	Increased slightly by 25 bps mainly from higher interest income, and higher net trading gain, offset by higher interest expense from higher cost of funds which pulled down the net returns generated from higher volume of earning assets during the period, and higher operating expenses.
Return on Average Equity <i>(Net income divided by Average equity)</i>	13.27%	11.22%	Increased by 2.05% pts mainly from higher net interest income and higher net trading gain, offset by higher operating expenses.
Capital Adequacy Ratio (Basel 3) <i>(Qualifying capital divided by the total of risk-weighted assets that include credit, market, and operational risk)</i>	17.07%	17.17%	Decreased by 10 bps due to higher total risk-weighted assets in relation to increase in total qualifying capital.
Basic Earnings per share <i>(Net income divided by average no. of common shares)</i>	3.85	2.83	Increase in basic earnings per share by PHP1.02 from higher net income during the current period.

### B. Financial Soundness

Ratio	September 2024	December 2023	Remarks
<b>Liquidity Ratio</b> (Liquid Assets to Total Deposits) <i>Liquid Assets include cash, due from banks, interbank loans, and trading and inv. Securities Total deposit refers to the total of the peso and foreign currency deposits.</i>	26.77%	19.69%	Increased by 7.09 % pts mainly from higher level in liquid assets mainly in financial assets at FVOCI & HTC, and higher Due from BSP, offset by lower interbank loans & SPURA and lower financial assets at FVTPL. This was offset by increase in deposits, mainly in time deposits.
<b>Debt Ratio</b> (Total Liability to Total Assets) <i>Debt refers to the total liabilities, while assets refer to total Assets</i>	87.67%	88.03%	Decreased slightly by 36 bps mainly from higher total assets driven by increased ave. receivables from customers, higher financial assets at FVOCI & HTC, and higher Due from BSP, and increase in ROPA due to dacion en pago in 2024, in relation to the increase in total liabilities.
<b>Asset to Equity Ratio</b> (Total Asset to Total Equity)	8.11	8.35	Ratio decreased as a result of the growth in equity due to reinvestment of net income, offset by the impact of higher total assets driven by increased ave. receivables from customers, higher financial assets at FVOCI & HTC, and higher Due from BSP, and increase in ROPA due to dacion en pago in 2024.
<b>Interest Rate Coverage Ratio</b> (Earnings before interest & taxes to Interest Expense)	177.96%	182.86%*	Bank's interest rate coverage decreased due to impact of increase in interest expense from rising cost of funds.
<b>Net Interest Margin</b> Net interest income over Average Earning assets	3.92%	3.98%*	Ratio is slightly lower as increase in average COF rates outweighed the increase in average asset yields.

\* As of September 2023

### 3. Discussion and Analysis of Material Event/s and Uncertainties

- a. The Bank does not have any material off-balance sheet transactions, arrangements, obligations (including contingent obligations), or other relationships of the company with unconsolidated entities or other persons created during the reporting period.
- b. As of September 30, 2024, the unspent amount from the approved capital expenditures budget on projects involving technology enhancement and facilities improvement amounted to ₱659.7 Million.
- c. The Bank has taken prudent steps to mitigate the risk through a more careful credit process and tighter credit policies. More importantly, it continues its assessment of its portfolio by regularly doing the stress test exercise.
- d. There is no recorded significant quarterly income or losses that did not come from the Bank's regular operations.
- e. Interest income on the non-discounted loan is recognized based on the accrual method of accounting, while unearned discounts are amortized to income over the term of the loans. As such, no seasonal aspect has a material impact on the Bank's interest revenues. Non-interest revenues, on the other hand, are primarily dependent on market dynamics and economic trends rather than seasonal factors.
